

2011 AUTO SPARE PARTS

PARTS-MALL

PRODUCT GUIDE Vol.1

PARTS MALL CORPORATION!

**YOU WILL ACCESS TO EVERY SINGLE AUTO PARTS
THROUGH PARTS MALL**

Since the foundation in 1998, through over 100% of annual growth and strong cooperation with many customers over the world, we have stood up as a key model company representing auto parts suppliers in Korea. We have been doing our best in all different parts of business and are very confident about our level of quality, price, delivery, supply rate, information and service.

We are declaring our 2nd round of business challenge with our own brand, "Parts Mall" items. We have currently initiated with small range of items such as Filters, Gaskets, Shock Absorbers, Brake pad sets, Brake shoe Assembly, Water Pumps and Spark Plug Cables, however, will cover all Fast Moving Items by our own brand in nears future.

We will be with you all the time and your future is our future.

Thanks and Best Regards,

BRAKE PAD

www.parts-mall.com

Excellent Traction

- * Excellent and precise cohesion to produce a highly stable friction coefficient
- * Outstanding thermal and heat insulation effects
- * Highly resistant to thermal conduction preventing icing in winter and providing excellent traction
- * promotes rapid evaporation, thus avoiding any deterioration in traction during the rainy season or along waterfront roads

Excellent Wear Resistance

- * Thanks to it's close adhesion to other various ingredients, PMC lasts a long time
- * Maintains wear without cracking or hardening until the product's life span is over

No squeak from friction

- * No squeak originated from friction
- * As a result, your ride is quiet and smooth, even when braking

Non-asbestos Product

- * 100% non-asbestos product which helps prevent environmental pollution

Through Quality Control

- * Produced under a through quality control system
- * ISO 9001 certified

Coverage

- *Items for all Korean car models
- *Items to be developed on demand for foreign car models

Certificate

- *EURO certified(E-4) Brake Pad.
- *Certified by ISO 9001, TS 16949.

BRAKE SHOE

www.parts-mall.com

Excellent Traction

- * Excellent and precise cohesion to produce a highly stable friction coefficient
- * Outstanding thermal and heat insulation effects
- * Highly resistant to thermal conduction preventing icing in winter and providing excellent traction
- * Promotes rapid evaporation, thus avoiding any deterioration in traction during the rainy season or along waterfront roads

Excellent Wear Resistance

- * Thanks to its close adhesion to other various ingredients, PMC lasts a long time
- * Maintains wear without cracking or hardening until the product's life span is over

No squeak from friction

- * No squeak originated from friction
- * As a result, your ride is quiet and smooth, even when braking

Non-asbestos Product

- * 100% non-asbestos product which helps prevent environmental pollution

Through Quality Control

- * Produced under a through quality control system
- * QS9000 certified

Coverage

- * Items for all Korean car models
- * Items to be developed on demand for foreign car models

CLUTCH KIT

www.parts-mall.com

We offer clutch kits (SECO brand) for passenger cars, and heavy duty equipment. These clutch kits use the very best components and come in new units.

Located between the engine and transmission of an automobile equipped with a manual gear box, it delivers or cuts the engine's drive to the transmission in pair with the clutch disc.

■ **composition**

clutch cover, clutch disc, release bearing

■ **Range**

Korean car models

■ **Certificate**

ISO / TS 16949

ISO 9001: 2000
